**MY LOVE SPEAKS VOLUMES:
*LIBRARY LOVERS' MONTH***

FOR RELEASE: January 24, 2005

Library Lovers' Month is a celebration of public, school, and private libraries. It is a time for the community and library customers to recognize the value of libraries. The awareness generated from *Library Lovers' Month* also helps assure that libraries will continue to serve our communities for years to come.

In February, let the Clermont County Public Library know they're "high on your shelf." Everyone is encouraged to decorate "I Love My Library" hearts at their local branch. The personalized hearts will be displayed at the branch.

You can also show the Clermont County Public Library that they're "the best chapter in your life" by adopting an author. Through the Adopt-an-Author program, your monetary donation will purchase an author's next new hardcover title published. You will adopt this author for a period of one year. If the author does not publish a new hardcover title within the year, your time will be extended until a book is published OR you may select a different author. Not only are you providing the community with the latest literary works and supporting *Library Lovers' Month* but you'll also be first to read the new title!

For more information on *Library Lovers' Month* or Adopt-An-Author, visit our website at www.clermont.lib.oh.us or call your local branch library.

The Clermont County Public Library is celebrating "50 Years of Caring and Sharing." 2005 marks the 50th Anniversary of the Library. Many things have changed over the years from new buildings to the addition of CD's and DVD's. Today, the Clermont County Public Library offers a variety of innovative programs, resources, and modern technology at all ten branch locations.
