Our annual Summer Reading initiative is one of the most important programs the Library offers. It is part of our mission to help children develop a love of reading, whether they are just learning, improving their skills or are already great readers. By reading during the summer, children are able to maintain their reading level, which helps them when school begins again in the fall. Parents who read to their younger kiddos are helping them be better prepared to read once they start kindergarten. Studies show that children who read well perform better in school. With millions of items available through the library, the number of books and resources we have to offer is dazzling!

The summer reading program is not limited to children and teens. At the Library, we believe reading is a lifelong learning experience. We encourage adults to read for enjoyment and enrichment as well.

Library guests of all ages can win prizes for participating in the program. A gameboard is included in this calendar that can be used to mark the time you read, which can be logged in later on our website. We hope everyone in the family enjoys this year’s program.

Don't forget to browse this calendar for lots of information about exciting programs you can attend in May and June. Enjoy your summer reading!
